FOR DEVELOPERS

Sell apartments before they are built.

An interactive sales site for your project — buyers pick their apartment right on the facade and contact you.

WHAT YOU GET

- **Facade with live status.** Green available, orange reserved, grey sold. Tap a unit, see the price.
- **Morning to evening.** One swipe takes the building from day to sunset to night.
- **View from the window.** Every floor has its own view. The strongest argument for the upper floors.
- **360° tour.** Walk through living room, bedroom and balcony — with a finger, no app.
- **Floor plans in 2D and 3D.** Every unit with floor plan, area, orientation and a PDF brochure.
- **Touchscreen showroom.** The same site in your sales office. A QR code sends the unit to the buyer's phone.

+ Choose the finishes · Light and sun · Ready-made Instagram posts

HOW IT WORKS

01

Send us the material

Facade renderings, floor plans and the price list as Excel. That is all it takes.

02

We build the demo

Within 48 hours you get a link with your project — free and without obligation.

03

You decide

Like it? It goes live on your domain. If not, we delete it.

Scan to try the live demo
